DETAILED ACTION

1. Claims 138-140 have been considered.

Reissue Applications

2. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. The declaration must explicitly indicate a specific error, instead of the currently generalized error of "claiming less than I had the right to claim".

3. Claims 138-140 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

Allowable Subject Matter

4. Claims 138-140 would be allowable over prior art if the rejection(s) under 35 U.S.C. 251, set forth in this Office action, were overcome.
5. The following is a statement of reasons for the indication of allowable subject matter: The combination of limitations found in the claims, namely, the networking of a plurality of printers together, collecting the trouble counts as detailed in the claims and

other status information, sending the counts and information to an information processing apparatus, and then selecting and displaying the location of a selected printer based upon that trouble and status information (in the level of detail in the claims, as opposed to Examiners paraphrasing), has not been found in any prior art.

Response to Arguments

6. Applicant's arguments have been considered and are persuasive in light of the amended independent claims. However, upon a review of all of the documents in the case, Examiner has noted an error in the declaration of the case, as detailed above. Correction of this error will result in allowance of the application. If Applicant has any questions about this action, Applicant is welcome to contact the Examiner at the phone number listed below to help resolve the outstanding issues.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2183

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
